Distinguished Lecture Series

“A Bit About The Bank: Perspectives on the World Bank from a Visitor from CDC”

- The World Bank is committed to ending extreme poverty by 2030 and doing so in ways that result in shared prosperity. The Bank is also one of the largest players in Global Health.
- Its unique connections with Ministries of Finance and its work across multiple sectors that affect health allow it to work in ways that complement US Government and CDC objectives.
- Mr. Shriber will offer perspectives from a visitor – a longtime CDC person on loan to the World Bank – looking in.
- He will include a brief history of the Bank, major issues it is now facing in a very dynamic world, and current and future issues in health.

**Mr. Donald
Shriber, JD, MPH**

**Associate Director
for Global Health
Development**
Center for Disease
Control and Prevention

**Tuesday, July 11th, 2017
11:45AM-1:00PM**

**DSCRC Room 989
1120 NW 14th Street
Miami, FL 33136
Lunch will be served.**
