THE SANFORD & GABRIELLE
KUVIN
FOUNDATION *****

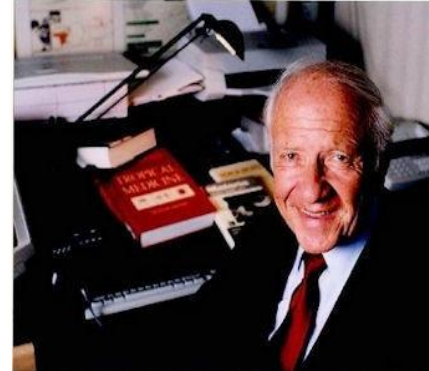

GRAND ROUNDS

“A Prescription for Peace Through Health and Science”

Dr. Sanford Kuvin is the founder of the *Sanford F. Kuvin Center for the Study of Infectious and Tropical Diseases* at the Hadassah Hospital in Jerusalem. Founded In 1979, the Kuvin Center has been a leader in research in molecular biology in infectious and tropical diseases. The center has achieved international scientific excellence and has been a flagship of international cooperation, with collaborative programs with many international with countries, including many Arab countries. He also founded the *Kuvin Foundation* in 1999 to support independent research of students studying in Israel.

Dr. Kuvin has an extraordinary history of facilitating cooperation in public health and diplomacy. In the 1980s and 1990s, Dr. Kuvin was instrumental in establishing the First Regional Cooperative Health Program ever between Israel and Egypt. The 10-year, \$10 million Vector Borne Disease program became the paradigm for successful regional cooperation between Israel and its Arab neighbors.

Dr. Kuvin believes in and advocates for the notion that health and science are the best prescription for peace in the Middle East, where as he says, “mosquitoes know no borders.” His talk will expand on his philosophy in this area as well as describe Center and Foundation projects, including the Egypt Project and most recently, the Malaria Project.

**Sanford F. Kuvin, MD,
MS, DTM&H**

Founder of the *Sanford and Gabrielle Kuvin Foundation* and the *Sanford F. Kuvin Center for the Study of Infectious and Tropical Diseases*

**Wednesday, September 17, 2014
11:45 AM-12:45 PM**

**Clinical Research Building
1st Floor Gordon Center
1120 NW 14th Street
Miami, FL 33136**

**Lunch Will Be Served
* Please arrive 15 minutes early**
