Distinguished Lecture Series

The Science of Improving Minority Health & Health Disparities

- Dr. Pérez-Stable leads the nation's health research, training and public education efforts to improve minority health and eliminate health disparities.
- Some populations, whether defined by race, ethnicity, immigrant status, disability, sex, gender, or geography, experience higher rates of certain diseases and more deaths and suffering from them compared with the general population.
- Dr. Pérez-Stable will discuss his vision and plan to design a systematic health research initiative - national in scope – to reduce the profound disparity in health status of its racial and ethnic minorities, rural, low-income, and other underserved populations.

Eliseo J. Pérez-Stable, M.D.

Director
National Institute on
Minority Health and
Health Disparities

Thursday, Sept. 29th, 2016
11:45AM-1:00PM

DSCRC Room 989
1120 NW 14th Street
Miami, FL 33136

Lunch will be served.
