Introduction

1) Describe the institutional environment, which includes the following:

a. Year institution was established and its type (e.g., private, public, land-grant, etc.)

The University of Miami (UM) is a private not-for-profit institution of higher learning established in 1925. Founded by a group of Miami citizens who believed that an institution of higher learning was necessary for the development of their young and growing community, the University has matured into a major research university and academic health system. Located within one of the most dynamic and multicultural cities in the world, the University is a distinctive community with a variety of races, ethnicities, customs, genders, and faiths. Its geographic location uniquely positions the University to be both local and global in outlook and outreach.

b. Number of schools and colleges at the institution and the number of degrees offered by the institution at each level (bachelor’s, master’s, doctoral and professional preparation degrees)

The University of Miami has 11 colleges and schools offering degrees: 135 bachelors, 146 masters, and 66 doctoral (62 research/scholarship and 4 professional practice). Three UM campuses and other facilities incorporate over 200 University-owned buildings totaling over 12 million gross square feet on over 400 acres of land. The Department of Public Health Sciences (DPHS) is located in the Miller School of Medicine; other UM schools and colleges are:

- School of Architecture
- College of Arts and Sciences
- Miami Herbert Business School
- School of Education and Human Development
- College of Engineering
- Frost School of Music
- Graduate School
- Law School
- School of Nursing and Health Studies
- Rosenstiel School of Marine and Atmospheric Sciences

c. Number of university faculty, staff and students

As of Fall 2020, the University of Miami employed 3,216 faculty (2,735 full-time, 481 part-time), 13,185 full-time and part-time staff, and a total of 17,809 students enrolled (11,334 undergraduate and 6,475 graduate). The student-to-faculty ratio is approximately 12 to 1.

https://www.irsa.miami.edu/_assets/pdf/factbook.pdf

d. Brief statement of distinguishing university facts and characteristics

Significantly improving its standing from the previous year, the University of Miami now ranks as the 49th best college in the nation, according to US News and World Report’s 2021 Best Colleges issue, placing it back among the 50 top-tier colleges and universities.
Coral Gables Campus: The Coral Gables campus, located on 240-acres in suburban Coral Gables, FL, houses two colleges and seven schools with 120 buildings totaling 5,330,905 gross square feet (GSF) of academic facilities and 1,359,759 GSF in structured parking.

Several new facilities have opened on the Coral Gables campus this past year—the Lakeside Student Village provides 1,100 beds for students in a state-of-the-art building, the new Student Services Building is a "one-stop" center for student facing service departments, the Klotz Batting Facility, an indoor baseball batting facility, allows for year-round operations for the baseball team, and a new greenhouse for research that supports the mission of the Gifford Arboretum and the College for Arts and Sciences.

Projects under construction include the new Frost Institute for Chemistry and Molecular Sciences building for the College of Arts and Sciences, the Knight Recital Hall for the School of Music, and a new utility plant to serve campus infrastructure needs. The second phase of Student Housing, Centennial Village, is also in the planning stages.

Medical Campus: The Leonard M. Miller School of Medicine campus consists of 70 acres within the 153-acre University of Miami/Jackson Memorial Medical Center complex. The medical campus includes the University of Miami Health System (UHealth), which comprises Sylvester Comprehensive Cancer Center (the only NCI-designated cancer center in South Florida), Bascom Palmer Eye Institute, and UHealth Tower, operating within the University of Miami Hospital and Clinics (UMHC). Affiliated hospitals include Jackson Memorial Hospital, Holtz Children’s Hospital, the Miami Veterans Affairs Medical Center and multiple partner hospitals that form the Miller School’s Regional Medical Campus. Approximately three-dozen UHealth outpatient clinics are located in Miami-Dade, Broward, and Palm Beach and Collier counties. The Lennar Foundation Medical Center, a 206,000-square-foot multispecialty ambulatory care facility, opened on UM’s Coral Gables campus in December of 2016. Miller School faculty conduct nearly 2,000 research projects and close to 1,400 UHealth physicians represent more than 100 specialties and subspecialties, with outcomes that are among the best in the nation.

The Miller School of Medicine continues to rank in the top 50 research medical schools, in the Best Graduate Schools published by U.S. News & World Report (2017 – 2021). The Miller School also rose to No. 40 of 147 schools ranked by the Blue Ridge Institute for Medical Research based on research grants received from the National Institutes of Health (fiscal year 2020). The Miller School of Medicine is the No. 1 most NIH-funded institution in Florida (Source: Blue Ridge Institute for Medical Research). Out of 28 departments within the Miller School of Medicine, the Department of Public Health Sciences is the 6th most NIH-funded and the Department of Public Health Sciences is No. 15 out of 46 public health departments within medical schools nationwide (Source: Blue Ridge Institute for Medical Research). In 2020, US News named the University of Miami’s Bascom Palmer Eye Institute the top ophthalmology hospital in the nation for the 19th time and the Miller School of Medicine’s Department of Otolaryngology No. 28 in the nation.

Rosenstiel School Campus: The Rosenstiel School of Marine and Atmospheric Science is one of the leading oceanographic research and education institutions in the nation. Located on an 18-acre waterfront campus on Virginia Key on Biscayne Bay, the Marine School’s main campus is part of a 65-acre marine research and education park that includes two U.S. Department of Commerce National Oceanic and Atmospheric Administration (NOAA) research laboratories and the MAST Academy, the Miami-Dade County magnet high school for marine science and technology.

Recent campus additions include the new 86,000 square-foot Marine Technology and Life Sciences Seawater Complex. The complex includes the one-of-a-kind Alfred C. Glassell Jr. SURge-STRucture-Atmosphere-Interaction (SUSTAIN) building capable of simulating 3-D wind-wave flow and surge produced by Category 5 hurricane force winds in complex coastal conditions. The Marine Life Sciences building, also located within the complex, provides a dedicated space for the study of marine animals, the critical connections between oceans and human health and the impacts of evolving climate on marine organisms and ecosystems. This complex was made possible thanks to a federal grant from the National
Institutional membership accreditation is maintained with Southern Association of Colleges and Schools Commission on Colleges. In addition, the University of Miami holds accreditation from 19 other professional agencies that recognize specific programs:

- Accreditation Board for Engineering and Technology Engineering Accreditation Commission (ABET-EAC)
- Accreditation Council for Graduate Medical Education (ACGME)
- American Bar Association (ABA)
- American Dental Association Commission on Dental Accreditation (ADA-CODA)
- American Music Therapy Association (AMTA)
- American Physical Therapy Association Commission on Accreditation in Physical Therapy Education (APTA-CAPTE)
- American Psychological Association (APA)
- Association to Advance Collegiate Schools of Business International (AACSB Intl)
- Commission on Accreditation of Athletic Training Education (CAATE)
- Commission on Accreditation of Healthcare Management Education (CAHME)
- Commission on Accreditation of Medical Physics Education Programs, Inc. (CAMPEP)
- Commission on Collegiate Nursing Education (CCNE)
- Commission on English Language Program Accreditation (CEA)
- Council on Accreditation of Nurse Anesthesia Educational Programs (COA)
- Florida Department of Education (FDOE)
- Liaison Committee on Medical Education (LCME)
- National Architectural Accrediting Board, Inc. (NAAB)
- National Association of Schools of Music (NASM)
f. Brief history and evolution of the school of public health (SPH) or public health program (PHP) and related organizational elements, if applicable (e.g., date founded, educational focus, other degrees offered, rationale for offering public health education in unit, etc.)

The Graduate Programs in Public Health resides in the Department of Public Health Sciences at the Miller School of Medicine. The Miller School of Medicine, founded in 1952, was Florida’s first medical school. The Leonard M. Miller School of Medicine now includes 21 clinical departments, 6 basic science departments, 45 centers and institutes, and 23 administrative groups, with more than 1,400 faculty members.

The Department of Public Health Sciences (formally known as the Department of Epidemiology and Public Health) was founded in 1970. The Department of Public Health Sciences has established a solid infrastructure consisting of five Divisions (established in 2010), all dedicated to addressing urgent societal public health needs through research and education programs. The five divisions are Biostatistics, Environment and Public Health, Epidemiology and Population Health Sciences, Health Services Research and Policy, and Prevention Science and Community Health.

The Graduate Programs in Public Health began with a Master of Science degree in 1980 and Master of Public Health degree in 1981, and established accreditation with the Council on Education for Public Health in 1982. The first doctoral program, in Epidemiology, was established in 1999, followed by the doctoral program in Biostatistics, established in 2010.

The Graduate Programs offers a distinct set of attributes to the prospective or continuing student in a culture that promotes interdisciplinary cooperation and collaboration, as evidenced in multidisciplinary research, service and teaching efforts. The degree program offerings in public health have expanded since the last re-accreditation cycle in 2014, with additional academic masters and doctorate degrees, joint public health degrees and certificate programs.

- Master of Latin American Studies (MALAS)/Master of Public Health (MPH) joint degree (established in 2014)
- PhD in Prevention Science and Community Health (established in 2015)
- Certificate of Building Expertise in Administration and Management (BEAM) (established in 2018)
- Master of Science in Prevention Science and Community Health (established in 2018)
- Master of Science in Climate and Health (established in 2019)
2) Organizational charts that clearly depict the following related to the school or program:

a. the school or program’s internal organization, including the reporting lines to the dean/director

- Full-size files of each organization chart for 2a and 2b are provided in the ERF Introduction.
Health Services Research & Policy
Kathryn McCollister, Ph.D.
Division Director, Associate Professor, Tenured

Prevention Science & Community Health
Adam Carrico, Ph.D.
Division Director, Professor, Tenured
